

WHAT WE DO

The Phoenix Design Group, Inc. designs, develops and implements professional corporate and social events.

Weddings

On that special day, everything must look great. We can assist you in transforming that average wedding venue into a spectacular destination. Custom lighting, both indoor and outdoor, will welcome your guests. The utilization of confetti and other special effects will give the bride and groom, as well as their guests, a send-off to remember.

Trade Show / Convention Services

The Phoenix Design Group is on the leading edge in trade show and convention design. We offer the in-house ability to develop and fabricate custom multimedia displays and booths. We also carry a large stock of pipe, drape and booth accessories.

Stage, Lighting and Sound

For any event, large or small, good lighting, sound and staging will make all the difference in the world. We offer the latest in equipment and technical knowledge to ensure that all events run as smoothly and professionally as possible.

Special Effects

Special Effects take any event to the next level. If you need a single blast of confetti, we can make it happen. We also offer a wide range of fog, bubbles, pyrotechnics and snow effects.
